

# AN OCCASION THAT CALLS FOR PRECISION WOOD BENDING...

This is one of several Wright aircraft that Drew and I have built with the students of Russia Local Schools. The kids made 44 wing ribs with a precise camber of 20 to 1. By the way, that's one of the student-builders in the cockpit. And that's Drew with the nose tether. If you'd like to see this glider fly, visit this link: <http://www.wright-brothers.org/Video/Russia%20flies.wmv> -- Nick
